Node Js | Redux | Material UI | Tailwind Css

Professional Experience

Full Stack Web Developer
Codeacious Technologies Private Limited.
December 2022 – present

Project: Coot-CMS
Coot-CMS is a Content Management System project that helps the user to create their own website for various sectors. A user without coding knowledge can be able to create and host their website.

Responsibilities :
- Reduced the size of the application by 30%.
- Implemented an outdated user interface into a more user-friendly UI.
- Converted the repeated components to reusable central components which reduced the redundancy of the code by up to 10%.
- Giving the options to create a website either using the ZIP file or predesigned templates.
